Store & Deliver Paging

SkyWord Plus — A New Standard In High-Performance Messaging

SkyWord* Plus Includes All Standard SkyWord Text Capabilities, PLUS

- Three Levels of Service Availability: Full, Basic, Storing
- Automatic Delivery of Stored Messages
- Seamless Nationwide Service
- Garbled Message Correction

**SkyWord Plus —
More Service Than Ever**

Congratulations on your purchase of the most advanced text service available. With SkyWord Plus you get three levels of service.

When the unit reads **Full Service** you're in prime coverage range. You'll receive all new messages and any undelivered, stored messages.

When **Basic Service** displays, you'll receive all your new messages but not any undelivered, stored messages (see Page Recall).

When **Storing Messages** displays, you are outside of a coverage area and all your messages will be stored. Those stored messages will be delivered automatically if you return to a full service area within

three days. (With Page Recall you can access those messages for nearly four days — see below). A time-stamp will tell you when the message was originally sent.*

Page Recall

Page Recall lets you phone in toll-free to check your messages at any time. When SkyWord Plus displays Basic Service or Storing Messages, you can still use Page Recall to make sure you haven't missed an important page. (For more information on Page Recall, see Step 4 of the *Getting Started* guide or page 12 of *The SkyTel System* booklet.)

PLUS TIP

If you're traveling out of coverage (in Storing) for more than three days, call toll-free into the system every day and use Page Recall. That way you'll be sure to get important messages.

Wide Coverage Without the Hassles of Roaming

SkyWord Plus provides service in all SkyTel coverage locations throughout the U.S. But no matter where you travel, you'll be covered by at least one of the three levels of service described above: full

*Remember that actual coverage may vary depending on terrain, weather, building density, and interference. But one value of the Advanced Messaging System is that it will store messages and deliver them when you return to full service coverage.

Word Plus

Visiting on the Internet at
<http://www.skytel.com>

Get SkyTel. Get the message.

skyWord Plus The enhanced

flexibility of our alphanumeric paging system, the confidence of assured message delivery with the quality and service only SkyTel can provide.

When you choose SkyWord Plus, you're getting the most advanced alphanumeric messaging system available.

Never again will you have to worry about missed messages if your pager is temporarily out of range (perhaps you're aboard an airliner) or you're changing batteries,

SkyWord Plus service will store your messages and automatically deliver them to you when you return to full service. And SkyTel provides more paging and messaging options than any other service. No wonder most of America's Fortune's 1000 companies use SkyTel. It's the world's ultimate paging and messaging system.

With SkyWord Plus, the anxiety of wondering whether or not messages will reach you is a thing of the past. That's because SkyWord Plus service provides the peace of mind of nationwide assured message delivery. If your pager is turned off or you're temporarily out of range, even if you lose your pager - SkyWord Plus service will automatically store your messages for up to 12 hours, adding a time buffer to help you get your messages when it counts.

Enjoy the exceptional reliability of SkyWord Plus: The new standard in alphanumeric paging.

With three levels of service, you'll never even know it was sent.) SkyWord Plus provides three levels of service. When your pager reads "Full Service," you'll receive all new text messages (up to 500 characters) and any undelivered, stored messages. "Basic Service" means you'll receive all new messages but not any undelivered, stored messages. And when your pager reads "Storing Messages," you are outside of a coverage area and your incoming messages will be stored. Simply return to a full service area within 12 hours and all your stored messages will be delivered automatically.

In addition, a Page Recall feature lets you phone in toll free at any time to listen to messages sent within the last four days.

It's no surprise that SkyTel is the corporate

America's choice in paging and messaging systems. After all, SkyTel was the first to offer both nationwide paging and wireless messaging. The first to provide nationwide

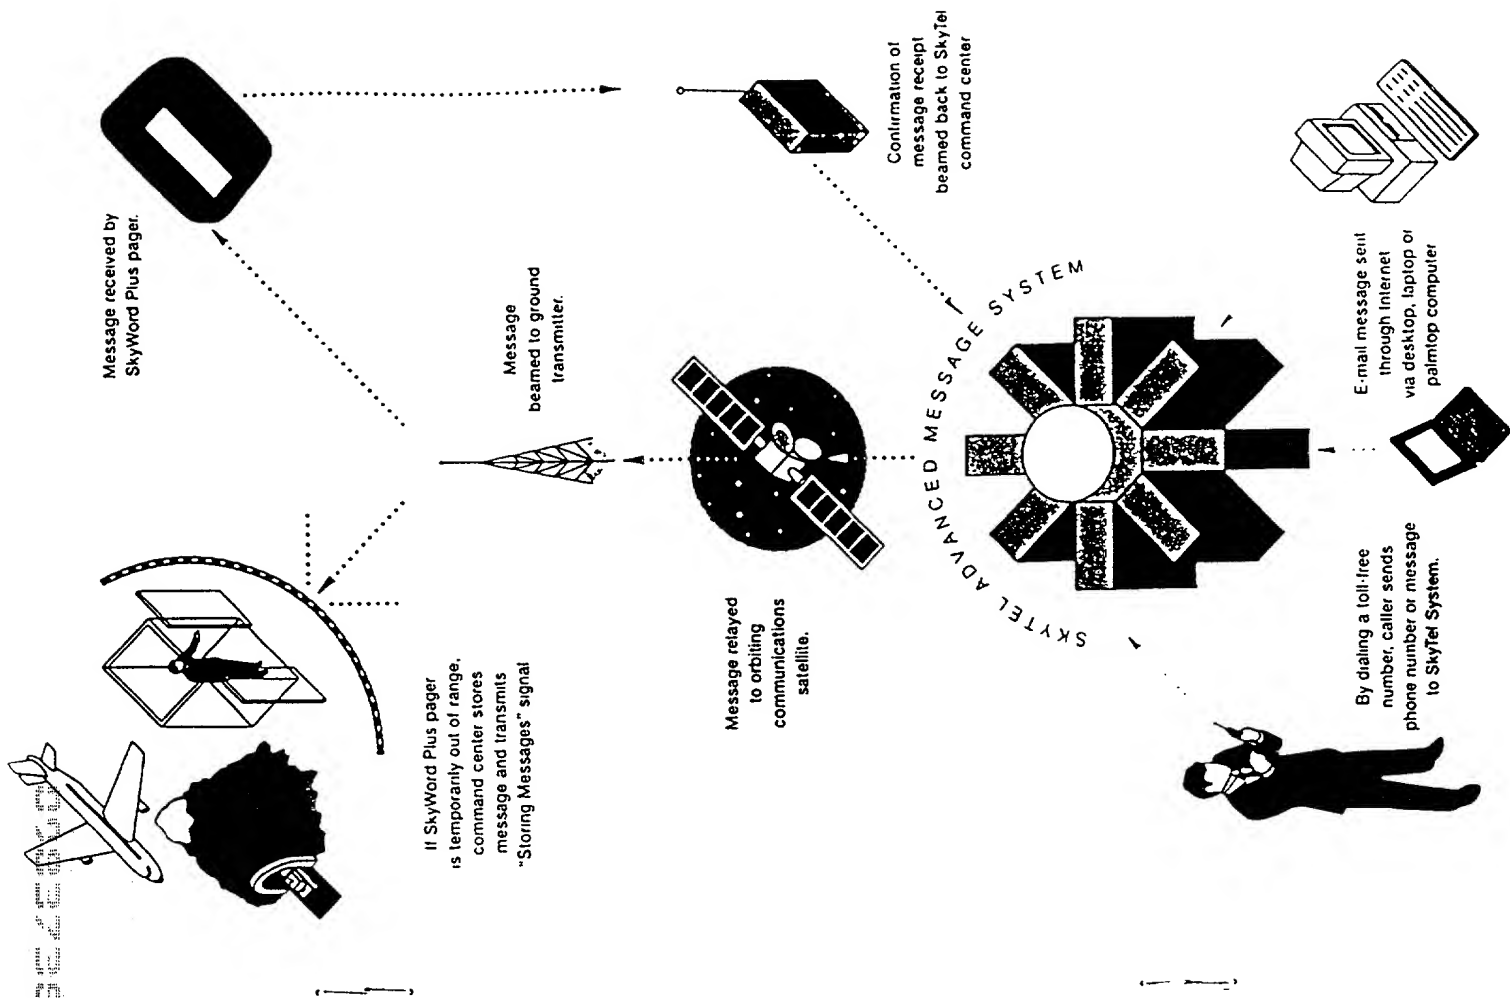

Get connected with the world's most advanced messaging system.

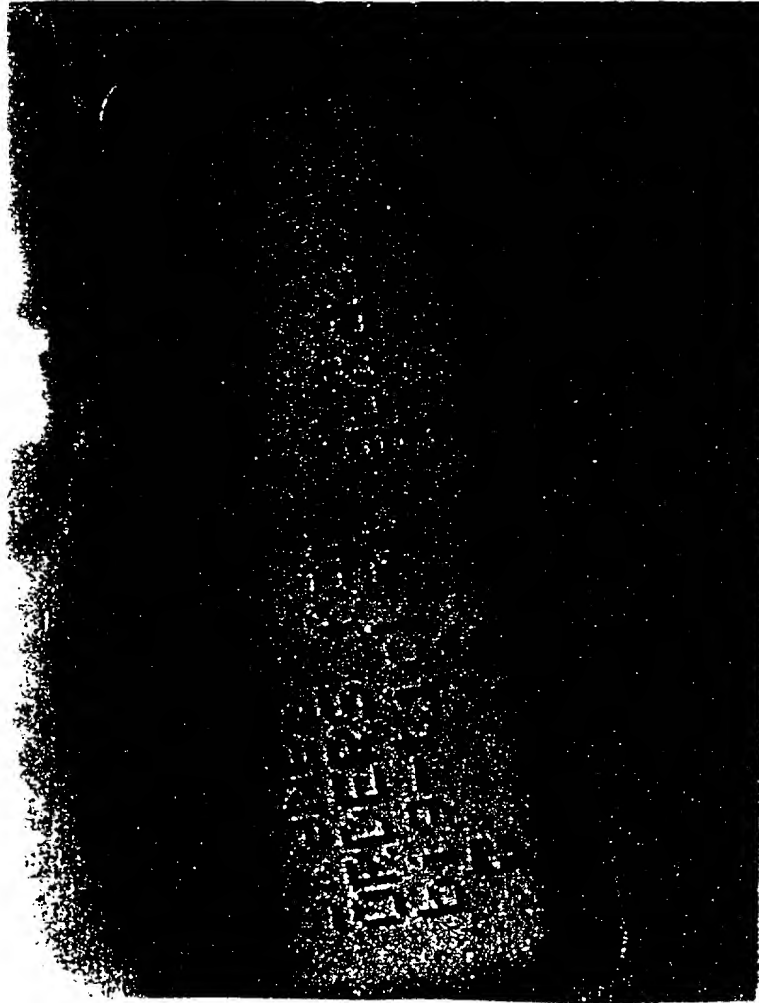

alphanumeric messaging service. And the first to deliver the unmatched reliability and convenience of SkyWord Plus.

SkyTel is also "first" in customer care and service. For instance, all calls to the SkyTel System are toll-free. And when a customer is out of coverage range, the SkyTel Page Recall feature allows the customer to call and listen to messages he or she may have missed.

Performance, service, convenience and reliability - only SkyTel has it all.

The SkyTel System is not only the world's most extensive messaging and paging system, it's also the most advanced. Using a state-of-the-art network of satellites, transmitters and command centers, the SkyTel System is unequalled in ensuring that all of your important messages get wherever they need to go.

The SkyTel System offers a host of premium services and features to meet all your messaging needs.

To keep up with your dynamic schedule, you demand nothing less than the best - the best from yourself, the best from your communications tools. That's why we designed the SkyTel System to be the ultimate paging and messaging network. From toll-free calling to Internet messaging, SkyTel delivers a variety of services, ensuring that you're in touch when you're on the go.

Internet e-mail messaging | Experience the cutting edge in communications power and flexibility: SkyTel subscribers can now receive e-mail messages sent via the Internet directly on their pagers! Senders simply use their regular e-mail system addressing messages to PIN@skymail.com. No special computers or software required.

Toll-free calling | All calls to the SkyTel System are free. SkyTel subscribers simply dial 800-SKY-8888 and enter a PIN.

Personalized greeting | Callers hear the subscriber's voice when they dial the

SkyTel System. Subscribers can change the greeting as often as they wish.

Voice-mail notification | Enjoy automatic notification of incoming messages virtually anywhere you go.

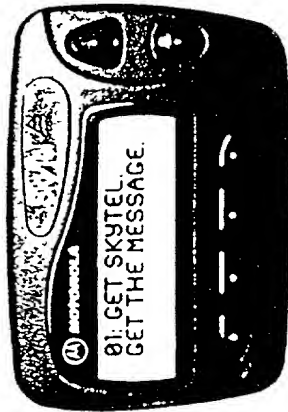

Free paging software | Ideal for sending messages when you're not connected to the Internet. Create address books, schedule messages for future delivery and more.

SkyNews | Free to every SkyWord Plus customer, SkyNews delivers the latest Dow Jones headlines twice daily - and whenever big news breaks.

The smart way to stay in touch,
wherever your travels take you.

SkyTel subscribers can
choose from a variety of
helpful communications
tools to enhance the
already impressive power
of the SkyTel System.

SkyTalk features the convenience of
being fully loaded and ready whenever
you need it. To retrieve
messages, subscribers need only dial

1-800-800-8000

| **Personal 800/800 numbers** | SkyTel
subscribers have the option of purchasing
a direct dial toll free number as a shortcut
for sending and retrieving messages

| **Corporate 800 number** | Never again
do callers need to memorize PIN numbers
for multiple users. When a company has a
SkyTel corporate 800 number, callers need
only dial one phone number and give the
name of the individual they wish to page

| **Stock quotes** | Allows subscribers to
track the performance of stocks and bonds
on their SkyWord Plus units. Users select
the four stocks or exchange indices they
wish to follow and they are updated twice
daily. The service also allows customers
to receive breaking Dow Jones headlines
relating to their selected companies
